FOR IMMEDIATE RELEASE:

JOHNSON SYSTEMS INC. RELEASES NEW CD-3000+ SERIES CONTROL PLATFORM

CALGARY, ALBERTA, January 4, 2022 – Johnson Systems Inc. (JSI) is pleased to announce the release of the new CD-3000+ Series Control Platform. The new platform uses brand new hi-speed processor technology and completely new firmware while maintaining the same functionality of previous generation CD-3000 systems. Reverse compatibility was maintained allowing older systems to upgrade their processor modules while maintaining the rest of the system. Enhanced features such as a USB-C and Bootloader permitting field firmware upgrades have been added.

“This exciting and powerful new platform will allow both the emergence of new products, re-designed existing products over the next year and a continued assurance of support to existing customers for years to come”, says founder and CEO Shaun Johnson.

Current products now shipping with the new 3000+ Series technology include CD-3000 (all models) for retrofit of Strand C21, Strand CD80[®] Supervisor, CD80[®] Advanced Electronic and CD80[®] original racks.
