FOR IMMEDIATE RELEASE:

JOHNSON SYSTEMS INC. RELEASES PRESIDOR™ ARCHITECTURAL LIGHTING CONTROL SYSTEM

CALGARY, ALBERTA, APRIL 29, 2020 – Johnson Systems Inc., an architectural lighting control company, announced today that it will release its highly anticipated Presidor™ Architectural Lighting Control System with the launch of its 2020 Product Catalogue.

“Although it has taken more time than originally anticipated, additional functionality and features were added after the feedback we received from dealers and specifiers at LDI 2019 in Las Vegas. We feel that our customers will find Presidor worth the wait.” says founder and CEO, Shaun Johnson.

The Presidor™ Architectural Lighting Control System provides attractive “patent pending” capacitive touch wall stations for control of up to 25 linkable/dividable rooms. System output is DMX512 providing universal application in an easy-to-use and scalable package. Optional zone link command permits remote room linking via touchscreen.

ABOUT JOHNSON SYSTEMS INC. (JSI):

For over 30 years, Johnson Systems Inc. has provided state-of-the-art retrofit lighting solutions to museums, auditoriums, theatres, conference centers, theme parks and more.
