FOR IMMEDIATE RELEASE:

Johnson Systems Inc. Announces JSI EDI-120 Retrofit For Electronic Diversified Inc. [EDI] Mark VII Dimmer Racks

CALGARY, Alberta (October 24, 2011) - JOHNSON SYSTEMS INC. (JSI) is pleased to announce the release of the new EDI-120, a next generation retrofit electronics package designed specifically for upgrading the EDI Mark VII performance dimmer racks making system replacement completely unnecessary.

"The Mark VII Dimmer racks were one of the most successful dimming products to emerge from Electronics Diversified Inc. and remains the workhorses for many educational and professional venues to this day. This new product delivers our powerful CD-3000 firmware and hardware technology to EDI Mark VII rack owners in a very compact and easy to install package. It is our hope that this product will help them realize many more years of reliable performance from their initial investment", say company founder, President and CEO Shaun Johnson.

Detailed information on the new JSI EDI-120 – including product images, product sheets and specifications - is available on JSI's website at www.johnsonsystems.com.
